16& 17	Two representatives from Non Governmental Organizations (to be nominated by the Chair Person)	Member

*Chair Person, may invite any special invitee in the Executive Committee meetings of the society*

The committee shall provide overall guidance and strategic support for the implementation of PIM and Command Area Development works in the state. The committee shall finalize annual plan and budget, Approval of selected / identified Project facilitating agencies (Non Governmental Organizations, WALMI, etc), review the progress of implementation and any other for delivery of the envisaged objectives.

<p>The above executive committee shall be co-terminus with the Executive Committee of Jharwater (Annexure 1). The office of Special Secretary, Water Resource Department, Government of Jharkhand cum Chief Executive Officer Jharwater shall function as PIM cell in the state. Prior to the creation of Jharwater, a temporary PIM cell shall be created and the cell shall facilitate PIM related planning, implementation and monitoring including empanelment of PIM facilitating agency. After creation of Jharwater, the PIM cell shall be taken over by Jharwater. The five Divisional offices of Jharwater at divisional headquarters (Ranchi, Hazaribag, Dumka, Chaibasa and Palamu) shall function as PIM units for the respective divisions. The WUA and its associated tiers shall be directly implementing PIM and Command Area Development works under the Technical and managerial support / facilitation of Non Governmental Organizations and other agencies empanelled by the Executive Committee.</p>	<p><b>A Participatory Irrigation Management Cell will be formed under the Joint Secretary, Water Resources Department by the Executive Committee mentioned above. This cell will facilitate the formulation, implementation and monitoring of plans/works related to participatory irrigation management, which will also include the work of empanelment of non-governmental organizations and other agencies that facilitate participatory irrigation management. Water Users Association/Federation/Project Committee will directly implement participatory irrigation management and command area development with the technical and managerial support of non-governmental organizations and other agencies.</b></p>
<p><b>5. Water User’s Association (WUA), WUA Federation and Project Committee:</b> It shall be at three levels:  Village or Hamlet level: The WUA shall be created in all villages / hamlets or outlet falling under the command area of canal, micro lift irrigation, water bodies, etc, having a command area of 10 hectares or more. Such WUA shall be informal conglomeration of farmers and shall not be registered; however, if necessary, in special cases, for the compliance of guidelines of Ministry of Water Resources (MoWR) &amp; Water Resources Department, Govt. of Jharkhand (WRD, GOJ) it may be registered.</p>	<p><b>5. Water User’s Association (WUA), WUA Federation and Project Committee:</b> It shall be at three levels: <b>A. <u>Flow irrigation Scheme</u></b> <b>(i) Village or Hamlet or Outlet level: – The WUA shall be created in all villages /hamlets or outlet falling under the command area of canal, micro lift irrigation, water bodies, etc, having a command area of generally 10-50 hectares. Such WUA shall be informal conglomeration of farmers and shall not be registered;</b></p>

Minor/distributary level: The village or hamlet level or outlet level WUA shall be federated to form minor or distributary level federation namely 'WUA federation'. It shall be registered under Societies Registration Act 1860.

Project Level: The office bearers (Chair Person, Secretary and Treasurer) of minor or distributary level committee under a project shall form 'Project Committee' for entire command area of a project. This committee may not be registered. For projects having smaller command area or where one or two minor /distributary committees have been formed, this committee may not be formed.

**(ii) Minor/distributaries level: Water Users Federation will be formed at the minor/distribution level by combining office bearers (Chair Person and secretaries) of generally 4-10 water users associations.**

**The water user association formed at the first minor/distributary level located in the direction of water flow in the main canal under any project shall include the water user associations of all the direct outlets under the main canal falling upstream of the outlet of the said minor/distributary. Similarly, the water users associations formed at the direct outlets located in the main canal falling between successive minors/distributaries may also be included in the subsequent water user federation. In the water user federation formed at the last minor/distribution level, the water user associations formed at other subsequent direct outlets located in the main canal may also be included.**

**Water Users Federation shall not be registered. However, if necessary, in special circumstances, the Water Users Federation formed at this level may be registered in compliance with the guidelines prescribed by the Government of India or the State Government.**

**(iii) Project Level: Generally, a 'Project Committee' will be formed for the entire command area of the project by including the office bearers (Chair Person, Secretary and Treasurer) of the committees of at least two or more water**

user federations under the project. This project committee will be formed at the divisional level. In case the jurisdiction of a project falls in more than one division, a project committee will be formed at each division level. It shall be registered under the Societies Registration Act 1860.

Contiguity will be kept in mind while forming the Water Users Association/ Federation/ Project Committee.

**B. Underground PipeLine Irrigation Scheme/ Megalift irrigation Scheme**

- (i) Village or Hamlet or Outlet level: – Under any control system, water user associations shall be formed in all the villages/hamlets falling within the command area of generally 10-50 hectares. Such WUA shall be informal conglomeration of farmers and shall not be registered;
- (ii) Minor/distributaries level: Under any control system, water users federation will be formed by combining the office bearers (Chair person and secretaries) of generally 6-15 water users associations. All associations related to outlets within one control system will come under a single federation. However, keeping in mind the contiguity, groups with one or more control systems can also come within a federation. It will not be registered. However, if necessary, in special circumstances, the Water Users Federation formed at this level may be registered in compliance with the guidelines prescribed by the Government of India or the State Government.

<p>5.1</p>	<p>Details of WUA, WUA federation and project committee</p> <p>i) Name and address: To be suggested and decided by the farmers of the command area.</p> <p>ii) Operational area and membership: Command Area, for which the WUA/ WUA federation has been formed and farmers owning cultivable land or lease land or share cropper in the command area shall be the members.</p> <p>iii) Status: <u>WUA generally shall be unregistered (may be registered in special cases as per provision of sec-5) and WUA federation shall be registered farmer's institution.</u></p> <p>iv) Documents to be kept in WUA and federation:</p> <p>a. Command Area map showing cultivable<sup>3</sup> and uncultivable land along with line diagram of irrigation infrastructure (canal or micro lift or flow irrigation system, etc.) and irrigable command area under each outlet,</p>	<p><b>(iii) Project Level: A 'Project Committee' will be formed for the entire command area of the project by including the office bearers (Chair Person, Secretary and Treasurer) of the water user federations under the project. This project committee will be formed at the divisional level. In case the jurisdiction of a project falls in more than one division, a project committee will be formed at each division level. and fixtures, computers, printers, scanners, etc. Each divisional PIM unit (at Ranchi, Hazaribag, Dumka, Chaibasa and Palamu) shall be staffed by one officer on deputation and one programmer cum MIS officer on contract basis along with essential furniture and fixtures, computers, printers, scanners, etc. The divisional PIM units may be created as per the requirements and readiness of command area for handing over for PIM.

- iii. Collation of irrigable command area<sup>6</sup> (irrigation potential) created in the state under Canal or Micro lift or Ponds or Well or any other irrigation system which are ready or where irrigation can be commenced, to be handed over for PIM,
- iv. Preparation of perspective physical and financial plan for PIM during 12<sup>th</sup> five year plan. Step iii and iv shall be revisited as and when required
- v. Empanelment of PIM Facilitation Agencies from among competent, Non Governmental Organizations, WALMI and other Resource institutions fulfilling the following minimum criteria:
  - a) Registered
  - b) Minimum three years' of existence and work experience in community organization, water management, irrigation promotion or agriculture promotion or similar work in Jharkhand or other state
  - c) Fulltime adequate staff having agriculture or water management or irrigation and social work background
  - d) Programmatic outreach in significant villages with annual budget of Rs. 100 lakh or above in last three financial years.

iii. Collation of irrigable command area (irrigation potential) created in the state under Canal or Micro lift or Ponds or Well or **megalift** any other irrigation system which are ready or where irrigation can be commenced, to be handed over for PIM. **In case of small lift irrigation, underground pipeline /megalift irrigation scheme, RRR etc., the processes of participatory irrigation management will be started at the planning/construction stage of the scheme itself.**

iv. **Preparation of perspective physical and financial plan for PIM**

v. Empanelment of PIM Facilitation Agencies from among competent, Non Governmental Organizations, WALMI and other Resource institutions fulfilling the following minimum criteria:

- a) Registered
- b) Minimum three years of existence and work experience in community organization, water management, irrigation promotion or agriculture promotion or similar work in Jharkhand or other state
- c) Fulltime adequate staff having agriculture or water management or irrigation and social work background
- d) Deleted
- e) Not black listed by any department of Government or NABARD or CAPART or any other agency.
- f) Other additional criteria as decided by the department

vi. **Allocation of area, work and resources to PIM facilitating agencies by Water Resources Department.**

<p>e) Not black listed by any department of Government or NABARD or CAPART or any other agency.</p> <p>f) Other additional criteria as decided by the department</p> <p>vi. Allocation of area, work and resources to PIM facilitating agencies by PIM authority,</p> <p>vii. Implementation of PIM by PIM facilitation agencies shall have broadly, the following steps:</p> <p>a. Orient the staff on PIM act, PIM rules, its process, envisaged outputs and outcomes and Prepare task time line for a period of 2 to 3 years,</p> <p>b. Awareness creation and sensitization of farmers through organizing farmers’ meetings at regular intervals, conducting exposure visits, audio –video shows on water management by farmers, etc and subsequently promotion of WUAs,</p> <p>c. Capacity building of farmers and WUAs on crop planning, water requirements of crops, water distribution, operation schedule of outlets, maintenance of water conveyance system and other components of irrigation system,</p> <p>d. Finalize system and procedure of WUA functioning (selection of Chair Person, Secretary and Treasurer of WUA, meeting regularity, norms and procedures), water tariff collection as per government direction. <i>In case of micro lift irrigation system, community shall decide on the water tariff and their collection mechanism.</i></p> <p>e. Preparation of water release / lift plan as per crop plan of WUA farmers and accordingly making water available in farmers field</p>	<p>vii. Implementation of PIM by PIM facilitation agencies shall have broadly, the following steps:</p> <p>a. Orient the staff on PIM act, PIM rules, its process, envisaged outputs and outcomes and Prepare task time line for a period of 2 to 3 years,</p> <p>b. Awareness creation and sensitization of farmers through organizing farmers’ meetings at regular intervals, conducting exposure visits, audio –video shows on water management by farmers, etc and subsequently promotion of WUAs,</p> <p>c. Capacity building of farmers and WUAs on crop planning, water requirements of crops, water distribution, operation schedule of outlets, maintenance of water conveyance system and other components of irrigation system,</p> <p>d. Finalize system and procedure of WUA, <b>WUA Federation and Project Committee</b> functioning (<b>selection of General Body/Executive Committee of WUA, WUA Federation and Project Committee</b>, conducting regular meetings, norms and procedures), water tariff collection as per government direction.</p> <p>e. Preparation of water release / lift plan as per crop plan of WUA farmers and accordingly making water available in farmers field</p> <p>f. Prepare plan for on farm /off farm Development works, RRR, Water conservation, Catchment treatment, watershed treatment and implement the same,</p>
---	--

- f. Prepare plan for on farm /off farm Development works, Repair Renovation and Restoration, Water conservation, Catchment treatment, watershed treatment and implement the same,
- g. Command area development, other farm development work and convergence with other programs: The plan for command area development work and other farm development works such as land leveling and bunding, construction of field channels, horticulture, etc shall be prepared by the WUA and farmers ( at hamlet / village level) under facilitation of the PIM facilitating agency. The plan shall be vetted and recommended by the WUA or Gram Sabha and shall be sent for getting financial assistance from Water resource department and other departments through convergence (Mahatma Gandhi National Rural Employment Guaranty Act, National Horticulture Mission, Integrated Action Plan, National Food Security Mission, etc). The approved plan shall be implemented by the hamlet / village level WUAs. The PIM facilitating agency shall provide all technical and managerial support including marketing to WUAs,
- h. The office bearers of WUA and federation shall liaison with various departments, Resource agencies, Panchayat and other elected representatives for convergence and seeking support for efficient functioning and economic growth,
- i. Collect contributions (in cash or kind or person days form) from members to meet a part cost of schemes, if implemented,
- j. Collect water tariff, make payments to individuals / agencies / government, maintain required records and send physical, financial reports and utilization certificates to all concerned,

- g. Command area development, other farm development work and convergence with other programs:- The plan for command area development work and other farm development works such as land leveling and bunding, construction of field channels, horticulture, etc shall be prepared by the WUA and farmers ( at hamlet / village / **outlet** level) under facilitation of the PIM facilitating agency. The plan shall be vetted and recommended by the WUA or Gram Sabha and shall be sent for getting financial assistance from Water resource department and other departments through convergence (Mahatma Gandhi National Rural Employment Guaranty Act, National Horticulture Mission, Integrated Action Plan, National Food Security Mission, etc). **The PIM facilitating agency shall provide all technical and managerial support including marketing to hamlet/ village /outlet level WUAs in order to implement the approved plan.**
- h. Assist office bearers of WUA and federation during liaisoning with various departments, Resource agencies, Panchayat and other elected representatives for convergence and seeking support for efficient functioning and economic growth,**
- i. Collect contributions (in cash or kind or person days form) from members to meet a part cost of schemes, if implemented,

<ul style="list-style-type: none"> <li>k. Organizing meetings for selecting representative for WUA federation. | <ul style="list-style-type: none"> <li>i) The WUA Federation shall give undertaking for safety of irrigation system to PIM authority,</li> <li>j) WUA Federation shall be authorized to collect the water tariff from farmers and deposit 30% or as decided by Water Regulatory Authority or Water Resource Department, Government of Jharkhand of the total collected water tariff to Water Resource Department, Government of Jharkhand. The WUA federation shall utilize rest fund for their operation and future maintenance,</li> <li>k) WUA /federation shall maintain water distribution and tariff collection register i.e. <i>Sudkar register</i> which shall contain farmer wise details of land, number of irrigation provided. Based on these and prevailing water tariff rate per hectare / acre, farmer wise demand shall be prepared and accordingly money shall be collected from member farmers. This register will be open for inspection by any farmer,</li> <li>l) In case, lower volume of water than the demanded and agreed on by both the parties, supplied and due to that there was crop loss, the WUA federation shall apply for water tariff waiver to PIM authority; the application shall reach to the PIM authority at least before 20 days of crop cutting. The authority shall examine the situation, decide on the application and communicate the decision to the Secretary of WUA / federation. If the decision goes against the WUA/federation, they may go for further appeal to higher authority,</li> <li>m) The WUA Federation shall deposit water tariff every year in <b>government treasury (as per agreement)</b>, by 31 March and 30<sup>th</sup> June for the previous Kharif and Rabi season respectively. In case the</li> </ul> | <ul style="list-style-type: none"> <li>g) The WUA shall distribute water as per water requirement of crops in the command area in such a way that all the farmers get water timely for irrigating their farm,</li> <li>h) The Executive Committee of WUA /Federation shall look after the water conveyance and distribution system including field channels and take necessary corrective measures for required repair and maintenance. All the repair work shall be undertaken after every crop season by the WUA or federation. For bigger or specialized repair and maintenance work, the federation shall try to execute the same by their internal financial resources. However, in situations, where the federation does not have adequate fund for such repair or maintenance, the federation may apply to <b>Project Committee</b> for seeking financial assistance. <b>The Project Committee</b> may support a part cost (rest to be shared by Federation), to be decided by <b>the Project Committee</b> on case to case basis. <b>Similarly, this process can be adopted as per requirement by the Project Committee from the Divisional Executive Engineer and by the Divisional Executive Engineer from the Water Resources Department, Government of Jharkhand</b></li> <li>i) In low laying area, appropriate arrangements shall be done to ensure safe disposal of excess water,</li> <li>j) The WUA/Federation/<b>Project Committee</b> shall give undertaking for safety of irrigation system to <b>the Divisional Executive Engineer,</b></li> </ul> |
|---|---|

WUA federation defaults the payment, the Water Resource Department, Government of Jharkhand shall stop supply of water in the next season. Same shall be applicable to all defaulting farmers and WUA or WUA Federation shall stop supply of water in the next season to the defaulting farmers' farm,

- n) In natural calamity situations such as flood or drought or fire the government may waive the water tariff for that particular year.

k) **The process of collecting water tariff from farmers and depositing the entire collected water tariff to the Water Resources Department, Government of Jharkhand will be as follows -**

**I. Flow irrigation Scheme**

- (i) **A Jal Mitra will be selected under each water user association, who will collect water tariff from all the farmers by preparing the accounts of each beneficiary. Jal Mitra will deposit the said amount to the Secretary/Treasurer of the Water User Association, which will be deposited by the Secretary/Treasurer in the Savings bank account of the Association. Out of the said amount, 20% amount is kept by the Secretary for the remuneration of Jal Mitra and 20% for various uses of the Association, such as maintenance of documents in the Association, maintenance of field channels, necessary corrective measures for desired repair and maintenance including its operation and future maintenance etc. and the remaining 60% amount will be deposited to the Water Users Federation.**
- (ii) **Similarly, by adopting the same process, the water user federation will allocate 40% of the water tariff amount received from each water user association for its various uses such as maintaining documents in the federation, maintenance of water transportation and**

distribution system, cleanliness, necessary corrective measures for desired minor repair and maintenance including its operation and future maintenance etc. and the remaining 60% amount will be deposited to the project committee.

- (iii) The project committee also adopts the same process and keeps 40% of the total water tariff amount received from each water user federation for its various uses such as maintaining documents in the project committee, cleaning of the main canal including its operation and future maintenance etc. and the remaining 60% amount will be deposited to the Water Resources Department, Government of Jharkhand through Divisional Executive Engineer as revenue to reimburse the expenditure incurred in works related to maintenance of the project etc..

**II. Underground PipeLine Irrigation Scheme/Megalift irrigation Scheme**

- (i) A Jal Mitra will be selected under each water user association, who will collect water tariff from all the farmers by preparing the accounts of each beneficiary. Jal Mitra will deposit the said amount to the Secretary/Treasurer of the Water User Association, which will be deposited by the Secretary/Treasurer in the Savings bank account of the Association. Out of the said amount, 20% amount

is kept by the Secretary for the remuneration of Jal Mitra and 10% for various uses of the Association, such as maintaining documents in the Association, its operation and future maintenance etc. and the remaining 70% amount will be deposited to the Water Users Federation.

(ii) Similarly, by adopting the same process, the water user federation will allocate 10% of the water tariff amount received from each water user association for its various uses, such as maintaining documents in the federation, its operation and future maintenance etc. and the remaining 90% amount will be deposited to the project committee.

(iii) The project committee also adopts the same process and keeps 10% of the total water tariff amount received from each water user federation for its various uses such as maintaining documents in the project committee, its operation and future maintenance etc.. Since the operation, maintenance and management of the Underground Pipeline/Megalift Irrigation Scheme is to be done by the Department through a technical agency, therefore the remaining amount of 90% of the Project Committee will be deposited in the Water Resources Department, Government of Jharkhand through the Divisional Executive Engineer as revenue to

		<p style="text-align: center;"><b>reimburse the expenditure incurred in these works.</b></p> <p>l) WUA /federation shall maintain water distribution and tariff collection register i.e. <i>Sudkar register</i>’ which shall contain farmer wise details of land, number of irrigation provided. Based on these and prevailing watertariff rate per hectare / acre, farmer wise demand shall be prepared and accordingly money shall be collected from member farmers. This register will be open for inspection by any farmer,</p> <p>m) Deleted</p> <p>n) The WUA/Federation/<b>Project Committee</b> shall deposit water tariff every year by 31<sup>st</sup> March and 30<sup>th</sup> June for the previous Kharif and Rabi season respectively. <b>In case the WUA/Federation/Project Committee defaults the payment, supply of water for such WUA/Federation/Project Committee shall be stopped in the next season.,</b></p> <p>o) In natural calamity situations such as flood or drought or fire, the government may waive the water tariff for that particular year.</p>
7.6	<p><b>Project Committee:</b></p> <p>Project Committee shall be the federated structure of WUA federation on project level. The process of formation of project committee shall be similar to that of WUA federation. Enclosures:-

- 1- By Law of Project  
Committee
- 2- Resolution of Project  
Committee
- 3- Registration Fee
- 4- Other, as required

Your's faithfully,

(Authorized Signatory)  
Name, Designation & Signature

**Annexure-2(i)**

Application format for water demand by WUA federation

To,

The Chair Person,  
Project Committee.

Subject: Application for water allocation and release to ..... Federation

Sir,

The Water User Associations/farmers under command area of ..... minor/  
distributary have formed ..... Federation. The details of irrigable command  
area and villages are as following:

Name of Village/ Hamlet	Irrigable command area (ha.)		Name of Water User Association, Name and Address of the Chair Person	Irrigation System (Traditional/UGPL)
	Kharif	Rabi		
Total				

On behalf of the federation, I apply for allocation and release of water from ..... minor /distributary for Kharif and Rabi irrigation for financial year..... The WUA federation, WUA and farmers shall abide by Jharkhand Participatory Irrigation Management (Amendment) Rules (2025) and adhere to the following terms and conditions:

- i) Federation shall collect water tariff as per prevailing rate decided by the WRD, Government of Jharkhand.
- ii) Jharkhand Participatory Irrigation Management (Amendment) Rules (2025) will be followed for collecting water tariff from water user associations/farmers and depositing the entire collected water tariff to the project committee.
- iii) Water Users Federation will submit applications for Kharif and Rabi seasons by 15<sup>th</sup> June and 30<sup>th</sup> November each year respectively.
- iv) Water Users Federation will deposit water tariff for the previous Kharif and Rabi seasons by 31<sup>st</sup> March and 30<sup>th</sup> June every year respectively.

Enclosures:-

1. Village / hamlet wise and season wise command area
2. Resolution related to selection of applications by the federation
3. Recommendation letter from Water Users Association on allocation of water.

Signature with Seal  
(Secretary, WUA Federation)
